

# Frowa Schuitemaker speaks about Presentation Intelligence

Achieve more when you speak; crucial for any professional who gives presentations. Also for your event!

## The problem of many presentations at events and in-company

Many professionals have never really learned how to deliver a successful presentation with slides as support. Then, it's no surprising that presentation tools are still regularly used as a reading tool and that many presentations are experienced as boring by the public.

*These kinds of presentations costs money instead of gaining it*

## The value of the presentation PowerPoint Intelligence

During the inspiring presentation PowerPoint Intelligence, Frowa lets the audience experience the do's and don'ts of a professional presentation. She shows you how to create space for contact with the audience and how to achieve more when you speak. The common thread of her message is the model she has developed. Step by step she shows in a refreshing way how each participant can make better presentations than ever before. Frowa has spoken in the Netherlands, Belgium, Surinam, Austria, New Zealand and Namibia.
